Dear friends,

We invite you to take part in the International Art Festival "SUNNY OLYMPIA", which is held annually in Kranevo at "VALKO" Youth Center. In the summer of 2027, the festival will be held on the Black Sea coast for the eleventh time.

The performances of the ensembles on the scene of Youth Center "Valko" are combined with vivid animation projects. There is a balance between the number of performances and holiday time of the participants on the Black Sea coast. This is what makes our festival unique. During the festival children and young people from different countries get acquainted with each other and at the same time learn about the culture and traditions of Bulgaria and these of the other countries-participants.

The festival unites talented children and young people, establishing friendly contacts among ensembles from different countries and revealing the unique colors of different national cultures and traditions. The experience and tradition of "Sunny Olympia" proves that our festival is a place of new friends, unforgettable meetings and impressions.

Since 2025, our hotel "Fregata" has access to mineral water, thus our swimming pool is filled exclusively with mineral water with a proven therapeutic and preventive effect. On the territory of the hotel there is a sink for drinking mineral water for our guests.

**You can get information about the properties of the mineral water at the end of Offers 2026 y.*

*Therapeutic and preventive properties of the mineral water from the well No. Vn-45 Kranevo. The curative and preventive properties of mineral water from well No. Vn-45 Kranevo are determined by its mineralization and the presence of hydrocarbonate-magnesium-calcium components.

Drinking balneotherapy of this type of water mainly affects the gastrointestinal tract, biliary and renal excretory systems. It reduces the increased acidity of gastric juice when taken 60-90 minutes before a meal, stimulates the kinetics of bile ducts and has an anti-inflammatory effect on the secretory function of the liver. When used for drinking balneotherapy and balneoprophylaxis, it has a beneficial effect on the following diseases: gastrointestinal tract (chronic gastritis and gastroduodenitis with reduced gastric secretion, peptic ulcer disease, enterocolitis associated with decreased motility of the intestinal tract, etc.); biliary-hepatic (gallstone disease, chronic cholecystitis, cholangitis, chronic hepatitis, biliary tract dyskinesia, etc.); renal-urological (chronic pyelonephritis, chronic cystitis, urate and oxalate lithiasis, conditions after lithotripsy, etc.); metabolic (gout, obesity, diabetes, etc.).

Inhalation treatment of chronic non-specific upper and lower respiratory tract diseases.

When used for ***external balneotherapy and balneoprophylaxis***, it has a beneficial effect on the following diseases: degenerative-inflammatory (in remission) - arthrosis, coxarthrosis, rheumatoid arthritis, Bechtereva's disease, etc.); on the part of the peripheral nervous system (discopathy, radiculitis, plexitis, polyradiculoneuritis, etc.); after surgical interventions on the musculoskeletal system (for kinesiotherapy in post-traumatic and post-operative conditions), skin (chronic dermatitis, psoriasis, etc.).

Mineral water can be used for ***hygienic and sports and wellness purposes***.
